

EPIC HCC Support: Risk Adjustment Navigator

The Risk Adjustment Navigator will trigger for any Hierarchical Condition Category (HCC) that has not been addressed during the current calendar year. The Risk Adjustment Navigator has a look back period for HCC reported within the past 3 years.

A Quick Look:

Visit Diagnoses

P SNOMED CT Annotations ICD-10-CM

New (!) Icon indicates Risk Adjustable conditions – click to open Visit Dx Window

- The color-coded sections distinguish Chronic Conditions for recertification (green) and Suspected conditions (purple)
- Each condition presents three choices based on whether the particular condition is on the patient's problem list
- Select "Add Visit Diagnosis" button to recertify the condition and add the condition to the visit diagnoses. Check the "Add to Problem List" box to simultaneously add the condition to the problem list.
- For conditions that are no longer active or no longer applies to the patient, select the "Resolve Problem" and/or "N/A to Patient" buttons (Note: Other Dx's in the same HCC may appear when selecting this option)

Where is the Risk Adj. Navigator in Epic?

The Risk Adjustment can be accessed in the following ways:

- ❖ Yellow Storyboard banner hyperlink [Chronic Condition Refresh](#)
- ❖ Pre-visit Tab, Visit Diagnosis section
- ❖ Plan Tab, Visit Diagnosis (*below*)
- ❖ Problem List (*first page*)

This screenshot shows the 'Plan' tab in the Epic system. The 'Visit Diagnoses' section is highlighted with a blue border. It displays two chronic conditions: 'Major depressive disorder, recurrent episode, moderate (*)' and 'Chronic hepatitis C without hepatic coma (*)'. Each condition has a 'Last Addressed by' field showing a doctor's name and date. Below each condition are buttons for 'Add Visit Diagnosis', 'Defer', and 'Resolve Problem', along with a 'Change Dx' link and a green checkmark indicating it's 'Added to Problem List'. The 'Reason for Suggestion' is listed as 'Encounter Diagnosis', and the 'Source' is the doctor's name and date. A 'Category Summary' link is at the bottom right of the section.
